

The List: Kings of Oldsmobile Power¹¹⁻²⁰⁻²⁰⁰⁹

Created and Maintained by Scott Bares, Minneapolis, MN (Oldsman on RealOldsPower.com) Copywrite 2009

The List ranks current running cars/dragsters that are corporate Olds powered based on ET. DRCE and Rocket Block based motors are not eligible. The data was collected from the owners of the vehicles. All cars not currently running are included in a separate section to recognize the accomplishment. The Historic information was collected from a variety of sources.

Vehicle weight includes driver. All Elapsed Times are for the 1/4 mile. 'Stock' suspension is defined as any type trailing arm in the stock mountings, including NHRA defined systems, no-hop, SSM, etc. Use of air bags, coil over conversion kits, after-market anti-roll bars and adjustable shocks are included in this category. The Block category contains a "350N" abbreviation; this represents the use of a 350 NASCAR block.
